Projects

Personal Portfolio Website

React.js, JavaScript, TypeScript, Email.js Designed and developed a responsive portfolio using React and TypeScript to showcase skills and projects. Integrated Email.js for functional contact form. Focused on modern UI, accessibility, and smooth navigation.

Supplication (Dua) Generator App

React.js Built a personal supplication (Dua) generator that displays Islamic duas randomly or on user request. Emphasized simplicity, readability, and spiritual impact through clean UI and minimalistic design.

MindLeap – Mental Health App (Front-End Clone)

React.js, Tailwind CSS Cloned a mental health-focused UI with professional layout and responsiveness. Implemented component-based architecture using React and styled with Tailwind CSS to ensure a clean, modern interface.
